

CONTEST GUIDELINES: Present Your Initiative!

Towards Gender Equity

Celebrating innovative initiatives that promote gender equity in urban mobility

SoMoS LAC 2025 Award – Latin America and the Caribbean

1. Context

Euroclima is the regional cooperation programme that promotes a strategic partnership between the European Union and Latin America and the Caribbean, based on shared values and a commitment to jointly address climate change and biodiversity loss. It is a platform for the exchange of ideas, knowledge and experiences between the two regions.

The programme is **co-financed by the European Union and the German Federal Government** through the Federal Ministry for Economic Cooperation and Development (BMZ). It aims to contribute to a sustainable, resilient and inclusive transition through climate change mitigation and adaptation actions, including the protection, restoration and conservation of biodiversity, as well as the promotion of the circular economy.

Euroclima supports partner countries in creating enabling conditions to attract investments, in particular in the framework of the Global Gateway Investment Agenda (GGIA) and the EU-CELAC (Community of Latin American and Caribbean States) cooperation. This effort contributes to sustainable and just transitions that promote resilience, carbon neutrality and inclusive prosperity.

2. SoMoS LAC – Community of Practice in Sustainable Mobility

SoMoS LAC contest, “Towards Equity: Recognizing Innovative Initiatives for Gender Equity in Urban Mobility,” is promoted by Euroclima. Its mission is to strengthen cooperation with Latin America and the Caribbean, fostering a green, fair, and sustainable transition across 33 countries.

Since 2018, Euroclima has supported the creation of SoMoS LAC - Community of Practice. In 2023, the community entered a new implementation phase, led by the Sustainable Transport component implemented by German Development Cooperation (GIZ).

SoMoS LAC connects public, private, and civil society actors, fostering dialogue and collaboration to drive leadership, policy development, and initiatives that improve mobility systems sustainably across the region. The network is structured into thematic groups, including the Gender, Equity, and Inclusion in Mobility Systems group, led by the Colombian Ministry of Transport, which is promoting this contest as part of its action plan.

3. Disclaimer

This competition is financially supported by the European Union through Euroclima programme, the content of the competition is the sole responsibility of SoMoS LAC and can in no way be taken to reflect the views of the European Union.

4. Purpose of the SoMoS LAC Award

The contest seeks to recognize, showcase, and promote innovative initiatives that advance gender equity and inclusion in urban mobility throughout Latin America and the Caribbean. Selected initiatives will be featured on SoMoS LAC's interactive web map, highlighting their key features. In doing so, the contest aims to encourage sustainable mobility for women and improve their urban travel experience, as well as access to public spaces.

Priority will be given to initiatives that have a tangible impact on equity and inclusion, with strong potential for replication and long-term sustainability. The contest is open to public institutions, private companies, civil society organizations, and academic entities leading these efforts.

By submitting an application, participants authorize SoMoS LAC to share essential information about their initiative for the contest's objectives, while safeguarding personal data confidentiality.

5. Application Categories

The contest has two categories:

a. Public Institutions and Private Companies

This category is intended for public or private entities, as well as joint ventures involved in urban transport regulation and operations, that have implemented concrete measures to address gender gaps in urban mobility. The contest will value initiatives that promote equal opportunities, increase women's participation in the sector, improve working conditions with a gender lens, or design and implement safer, more inclusive, and accessible services.

b. Civil Society Organizations and Academic Entities

This category is aimed at civil society groups and academic institutions that have developed research, pilot projects, campaigns, methodologies, or training programs promoting gender equity in urban mobility. Priority will be given to projects that have generated valuable insights, influenced public policy, fostered cross-sector collaboration, or shown potential for scaling and replication in other urban contexts.

6. Eligibility and Exclusions

An "initiative" is any concrete action, program, project, or measure—implemented or in progress—that demonstrates or is expected to deliver measurable impacts on gender equity in sustainable transport. Gender-focused initiatives can range from specific interventions (e.g., campaigns or infrastructure upgrades) to comprehensive long-term strategies.

a. Public Institutions and Private Companies

- Must have implemented the initiative in at least one city in Latin America or the Caribbean, or have been developed for a country in these regions.
- The applicant may be a public or private entity.
- The initiative must have been implemented between January 1, 2021, and no later than one year prior to submission.

- The organization must be legally registered and operational.
- Initiatives currently participating in the “Mujeres en Ruta 2025” contest by OBGEM are not eligible in any of their cities. Nevertheless, other initiatives from the same applicant may still apply to this contest.
- Organizations directly or indirectly involved in preparing or managing this contest are not eligible.

b. Civil Society Organizations and Academic Entities

- The initiative must relate to experiences or research applied in a Latin American or Caribbean city, or have been developed for a country in these regions.
- Applicants can be academic or civil society entities. Legal registration is not mandatory for this category.
- The initiative must have been implemented between January 1, 2021, and the submission date.
- The organization must be operational - Initiatives currently participating in the “Mujeres en Ruta 2025” contest by OBGEM are not eligible in any of their cities. Nevertheless, other initiatives from the same applicant may still apply to this contest.
- Organizations directly or indirectly involved in preparing or managing this contest are not eligible.

7. Application Process

- Applications must be submitted exclusively through the online form at <https://rumboalaequidad.org/>
- Applicants must include a letter signed by a senior official of the institution, authorizing the submission and use of information and the organization’s logo.
- Applications can be submitted in Spanish (ES), English (EN), or Portuguese (PT)

8. Evaluation and Jury

Submissions will be evaluated according to the following criteria:

a. Category: Public Institutions and Private Companies

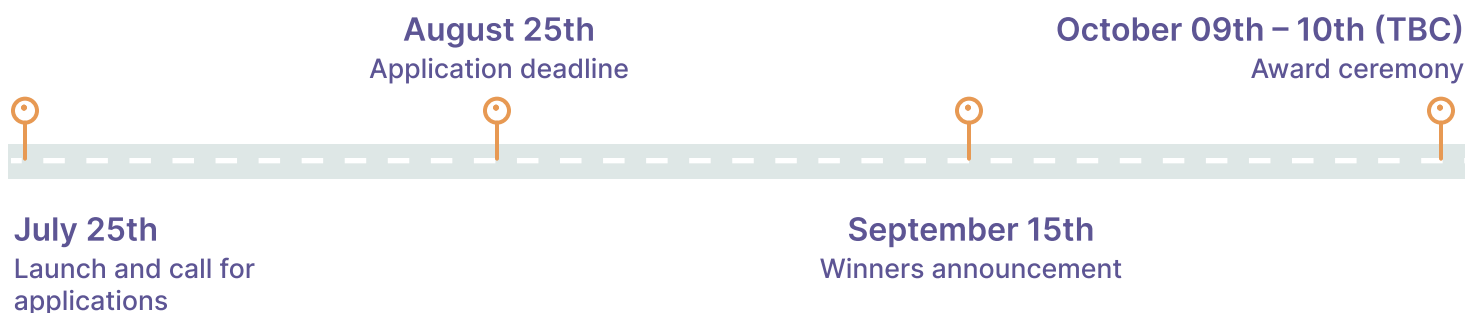

30%	Innovation Creative solutions addressing gender barriers in transport operations or management
30%	Impact Positive outcomes in inclusion, safety, participation, or women’s employability
10%	Replicability Potential to be implemented in other cities or organizations
10%	Sustainability Ability to remain effective over time within the organizatio
20%	Evidence Availability of data, documentation, or measurable results

b. Category: Civil Society Organizations and Academic Entities

30%	Innovation New approaches, tools, or research addressing gender inequality
30%	Impact Demonstrated results in awareness, advocacy, or applied knowledge
10%	Replicability y Potential to scale or transfer methodologies
10%	Sustainability Ability to continue beyond the project scope
20%	Evidence Publications, documentation, or data supporting outcomes

The jury will consist of experts in gender, mobility, and public management.

9. Timeline

10. Awards

The top three initiatives in each category will receive first place, second place, and honorable mention awards.

The awards will be presented during an international event in Bogotá in October 2025, co-organized with the Latin American Gender and Mobility Observatory (OBGEM). During the event, winners of the “Mujeres en Ruta” contest organized by OBGEM will also be honored. The event will include technical sessions, site visits, and networking opportunities among the selected organizations.

SoMoS LAC will cover travel and accommodation expenses in Bogotá for one representative of each first and second-place winning organization in both categories.
